

CITYJET

EXCEEDING ALL YOUR EXPECTATIONS IN DESIGN, PERFORMANCE, USER FRIENDLINESS AND RELIABILITY

The Rioned Cityjet sets the standard in design, performance and reliability. It is the most compact machine in its class and thousands of users worldwide rely on their Cityjet day-in day-out. The all new Cityjet hosts a range of innovative new features to enhance the machine functionality while offering superior ergonomics.

The compact design and low weight maximizes the carrying capacity of the vehicle.

MORE EFFECTIVE

The high pressure hose reel now pivots through 180 degrees for optimum working conditions in all circumstances. The new hose reel has been widened to accommodate up to 140 metres of 1/2" high pressure hose or 120 metres of 5/8" hose. And the new electric locking mechanism on the hose reel is a major improvement in user friendliness and safety.

The RioFree freewheel system ensures that the hose reel can be coiled off without any friction of the hydraulics, this feature significantly reduces the effort required to operate the hose reel. The new high pressure jetting hose fitted to the Cityjet is not only the lightest hose in its class.

It also ensures minimum pressure loss thanks to the smooth inner surface and widened inner core. This also results in an increase of 12% effective working pressure at the nozzle.

USER FRIENDLY

The Cityjet fits most popular vehicles such as the Mercedes-Benz Vito, Volkswagen Crafter and Ford Transit. The modern, newly designed covers protect the user from rotating parts and reduce the noise levels of the machine to a minimum. The covers are easily removed for quick access to the engine and pump when servicing is required.

With an easy fill fuel tank and special forklift lifting provision the new Cityjet is extremely user friendly.

WARM WATER OPTION

The use of warm water is ideal to clear pipes of fat, grease, detergents and scale build-up. Your Cityjet can be fitted with our patented self-contained warm water option*. The system uses engine and exhaust heat to heat up water to a maximum temperature of approx. 55°C without any extra energy.

ECO PACKAGE OPTION

The eco package helps you to save water and fuel. The start/stop system shuts of the engine automatically when the pump is off. The built up pulsator significantly reduces the consumption of water by sending pulses through the hose. Insulated machine covers and a special stainless steel exhaust system reduce noise levels to the absolute minimum.

See page 15 for all options.

* Not available on all models. Ask your sales representative for details.

TECHNICAL SPECIFICATIONS

Operating range	Max 450 mm	
Engine	Kubota Diesel V1505 25 kW (34 HP) Kubota Diesel V1505T 30 kW (41 HP)	
Pump	150 bar / 100 lpm	2250 psi / 22 gpm
Rioned/Speck	160 bar / 75 lpm	2400 psi / 17 gpm
	160 bar / 85 lpm	2400 psi / 19 gpm
	200 bar / 60 lpm	3000 psi / 13 gpm
	200 bar / 72 lpm	3000 psi / 16 gpm
	250 bar / 60 lpm	3600 psi / 13 gpm
	270 bar / 54 lpm	4000 psi / 12 gpm
Pump protection	Run dry protection with overrun possibility	
Pressure regulator	Type Speck with automatic bypass	
Water tank	600 litres (2x 300 litres)	
Fuel tank	30 litres	
Filling reel	50 metres NW 19	
HP hose	80 metres NW 13 (1/2") or NW 16 (dependent on configuration)	
HP hose reel	Hydraulic drive with RioFree freewheel, 180° pivoting	
Weight	As from 530 kgs	
Dimensions (L,W,H)	1335 x 1240 x 1195 mm	
Nozzles	2 x 1/2" (1 open, 1 blind)	
Accessories	Spraygun and lance	
Color	Blue hose reel, black frame	

- > 180° PIVOTING HOSE REEL
- > eCONTROL+ CONTROL PANEL
- > HIGH PERFORMANCE
- > LIGHT WEIGHT
- > LARGE CAPACITY HOSE REEL FOR UP TO 140 METRES HP HOSE
- > ELECTRIC HOSE REEL LOCKING MECHANISM

Wide 180° pivoting hose reel for max. 140 metres of 1/2" hose

RioFree mechanical freewheel at the hose reel for coiling off without any resistance

Electric locking mechanism for easy pivoting supplied as standard
